Greater Moncton and
Southeastern New Brunswick

WE BUILD STRONGER COMMUNITIES

We're moving people from poverty to possibility.

We're making sure kids are all that they can be.

OVER 17,000 LIVES DIRECTLY IMPACTED & MANY MORE CHANGED INDIRECTLY

IN 2022, YOU MADE A DIFFERENCE

United Way Outcomes

- **647** people began to move from Poverty to Possibility
- **4,589** children and youth acquired the skills and assets they need to handle life's challenges
- **4,728** children and youth were connected to supportive adults

Agency Outcomes

- **180** people dealing with homelessness, poverty, mental health and substance use know where to go in the community to get help
- **863** youth learned more about their culture and connected with their elders
- **476** youth had access to mental health care from counsellors

YOUR IMPACT IN ACTION: UNITED FOR LITERACY

Every young person wants to feel safe, to belong, and to participate in activities. It is through the support and investment of United Way that United for Literacy (formerly Frontier College) has been able to provide free tutoring to students who need support to succeed in school and life. The impact of this investment can easily be heard through the words of a parent to one of their newcomer students who attends the tutoring program at the Centre d'accueil et d'accompagnement francophone des immigrants du Sud-Est du Nouveau-Brunswick (CAFi), as well as her tutor. Working alongside CAFi, they were able to provide individualized support for this newcomer student to improve their French language skills, help them thrive in school, provide them the tools to handle life's challenges, and create the feeling of belonging to their new community.

"My daughter loves to attend the class each Saturday. She loves her teacher and the class too. She loves learning different languages and her interest in French motivates her to attend the class and help her a lot to improve her French language."

DOING MORE TOGETHER

BUILD FOR THE FUTURE

Through Build for the Future, Greater Moncton's construction industry, in partnership with United Way, comes together and contribute \$1 million dollars over 10 years to create long-term meaningful impact by supporting essential nonprofit agencies and programs for youth in our local community.

211

A free and confidential information service trademarked to United Way, 211 is the front door to help, making sure everyone in New Brunswick finds the resources they need, when they need them most.

FOOD PROGRAMS

The United Way Senior's Meal Program, supported by Social Development and the Food Depot Alimentaire, currently provides 10 meals per week to approximately 115 vulnerable, low-income seniors, mobilizing many committed volunteers weekly to deliver directly to the senior's homes. Without the ability to access food and meals from home, many of these seniors would be unable to stay in their homes due to their inability to maintain healthy, affordable, and consistent eating habits. The program delivers to six different locations in the Moncton area and as well as Salisbury and Petitcodiac with its partners.

YOU TURNS

YOU Turns connects youth to whom and what they need not only to succeed, but to help them reach the next level.

PEER SUPPORTED HOUSING

In partnership with United Way, Salvus Clinic manages 6 Peer Supported Housing buildings, providing housing with on-site support to tenants who experience issues with mental health and chronic homelessness.

COMMUNITY TRANSIT

United Way administers the Community Transit Pass Program, in partnership with the City of Moncton and Codiac Transpo.
