

WHAT'S HAPPENING IN OUR COMMUNITY?

- Greater Moncton grew **23%** in three years, faster than housing, schools, and services can keep up.
- Housing prices have doubled since 2019 and homelessness has risen more than **200%**.
- One in three New Brunswickers struggle with food insecurity.
- Youth mental health and employment remain top concerns.
- Nonprofits are stretched thin, facing rising costs, staff burnout, and unstable funding.

SO WHAT DO WE DO?

United Way of Greater Moncton and Southeastern NB does more than raise funds.

We bring partners together to tackle complex issues like housing costs, homelessness, youth mental health, youth employment, and food insecurity.

We work with local partners and community groups to identify needs, co-design and develop programs, and strengthen the systems that help people thrive. We link community efforts so people and youth have support for as long as they need it.

Every dollar stays local. Every action fuels lasting change.

We also help raise funds so our partners can focus more on helping people.

HOW DO WE MAKE IT WORK?

Our 5-year funding model gives our strategic and anchor partners stability to plan, hire, and focus more on impact and less on fundraising.
